Licenses and options "per computer" are valid without time limit but only for a given motherboard and processor.
When changing one of these components in your computer, it will have to request for a new license (for free).
The Family Hotel Club membership is not binding and automatically renewable each year. It needs to be updated of your contributions from the activation date of your first license Family Hotel (without interruption period).
Being able to take advantage of multiple licenses per establishment is restricted to members of the Club Hotel Family to-date with their subscriptions. For breach of the Family Hotel Club membership, you can keep only one active license.
